SUMMARY

Professional Software Developer with 6+ years of experience in PHP web development, specializing in Laravel and CodeIgniter. Skilled in coding, debugging, API integration, database management (MySQL), and performance optimization. Known for strong problem-solving, teamwork, and delivering high-quality, results-driven software solutions

EXPERIENCE

Laravel Developer | Keyntech Technologies   Feb-25 To Present

As a Laravel Developer, I am responsible for
- Developing web applications from the ground up, including UI design and business logic implementation.
- Continuously learning new technologies and implementing them in projects.
- Working with junior developers, providing guidance, and handling team responsibilities.
- Managing databases and ensuring smooth application performance

Software Developer | Krayons Technology   June-20 To Dec-24

As a Software Developer, I was responsible for

- Interacting with clients/stakeholders to understand requirements
- Designing and implementing backend logic
- Building and consuming REST APIs.
- Writing clean, reusable, and secure code.
- Participating in planning, testing, deployment, and support.

Jr. Software Developer | Alite Projects   Dec-19 To May-20

As a Software Developer

- Completed 1 month of hands-on training in JavaScript, focusing on web development fundamentals.
- I continued as a Junior JavaScript Developer, contributing to the development of interactive and responsive web applications.
- I gained experience in writing, testing, and debugging JavaScript code under the guidance of senior developers.

Jr. PHP Developer | WebMobi Technology   June-18 To Dec-19

Started as a Trainee (6 months) and later promoted to Junior Developer, gaining hands-on experience in PHP-based web development by contributing to real-world projects under senior guidance and building dynamic websites and web applications

SKILLS
